PARTNERSHIP...

(RE)CONNECT PEOPLE TO THE LAND...

GOALS: TO CONNECT PEOPLE TO PARKS IN THE NEXT CENTURY, THE NPS *must*

DEVELOP and nurture lifelong connections between the public and parks—especially for young people—through a continuum of engaging recreational, educational, volunteer, and work experiences.

CONNECT urban communities to parks, trails, waterways, and community green spaces that give people access to fun outdoor experiences close to home.

EXPAND the use of parks as places for healthy outdoor recreation that contributes to people's physical, mental, and social well-being.

WELCOME and engage diverse communities through culturally relevant park stories and experiences that are accessible to all.

HEALTH...

Take a Hike, Call Me in the Morning

6 Expand the health community's use of parks as a healing tool and increase citizen recognition of the value of parks to improve health and well-being by establishing 50 formal partnerships with health and medical providers across the country.
